FROM: Tom Munson, Senior Reclamation Specialist *tm*
RE: Meeting with Resource Design Solutions, Regarding the Division's Noncompliance Letter, RDS 502, Resource Design Solutions, S/023/067, Juab County

Date of Meeting: May 30, 2001
Location: Division's Copper Room
Time of Meeting: 9:00 a.m.
Participants: George Finnegan, RDS; Mary Ann Wright, Wayne Hedberg, and Tom Munson, DOGM

Purpose of the Meeting: To determine what the intentions of Resource Design Solutions were regarding resolution of the non-compliance.

On May 30th Mr. George Finnegan arrived at the Division's offices to meet with Mary Ann Wright and discuss the non-compliance of project RDS 502. He stated that Mr. Dunlop was in Colorado and would not be able to attend the meeting. He stated that he was in charge of the financial aspects of the operation. His responsibility was related to the raising of capital to fund the project and that they had a pending contract with the Mormon Church to supply granite for the "New Generation Temples" starting with one in Lubbock, Texas. They want to do this project right with some high quality funding. They were to receive their first Purchase Order this week from the Church. The granite material would be mined in 9' x 5' x 5.5' blocks and cut and polished in Vancouver, Canada.

The Division impressed upon him the need for a reclamation bond to cover the 6.65 acres of disturbance. This bond amount, based on the Division's transitional surety policy, was calculated at \$5,000/ac. x 6.65 ac. for \$33,250.00. A deadline of June 12, 2001, was given for the transitional bond to be in place. Mr. Finnegan stated that he expected the LMO to be emailed or faxed to the Division by Friday.

A brief discussion of what was required by the Division for the Large Mine Plan happened towards the end of the meeting. Mr. Finnegan stated that the LMO would be sent to the Division offices on Monday. Another meeting was scheduled at the Division offices on June 11th at 2:00 p.m.. Mr. Finnegan was given the necessary forms to complete the Transitional Surety Bond and a Transitional Reclamation Contract. The meeting ended at 10:30 a.m.
